Information for LPA and Applicant

Under the Environmental Permitting (England & Wales) Regulations 2016 it is an offence to cause or knowingly permit a groundwater activity unless authorised by an Environmental Permit which we will issue. A groundwater activity includes any discharge that will result in the input of pollutants to groundwater. The site is located within a Source Protection Zone 1c for the Westergate abstraction which is located 400m east of the site.

Due to the size of the development the discharge of domestic sewage associated with this development may be subject to General Binding Rules under the Environmental Permitting (England & Wales) Regulations 2016 which provide a statutory baseline of good practice. You can find more information online at <https://www.gov.uk/permits-you-need-for-septic-tanks/permits> or contact us on 03708 506506.

Yours faithfully,
