

Please see Action Sheet

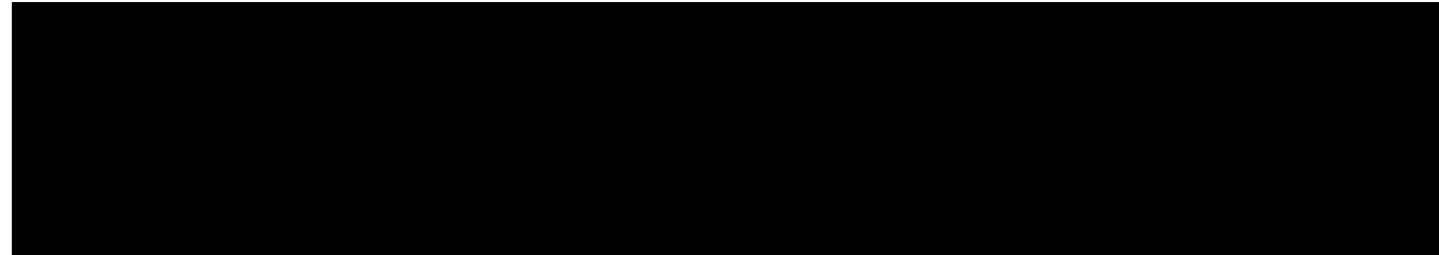

Simon,
Yes you are correct it is Rev G. I attach that so that you have the correct plan sent from me as a formal submission rather than from Rachel.

It is indeed Rev G that we are using.

Sorry for the confusion. This comes from having two work email addresses.

Regards,

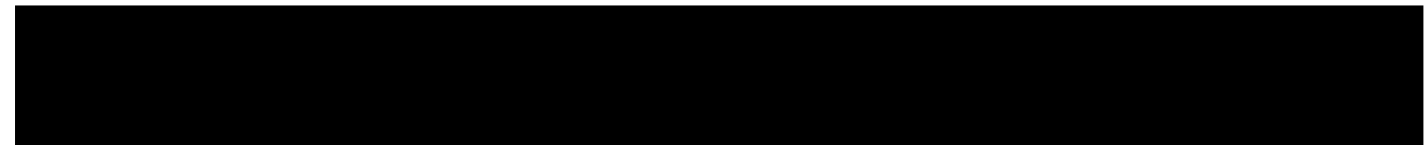

Eamonn

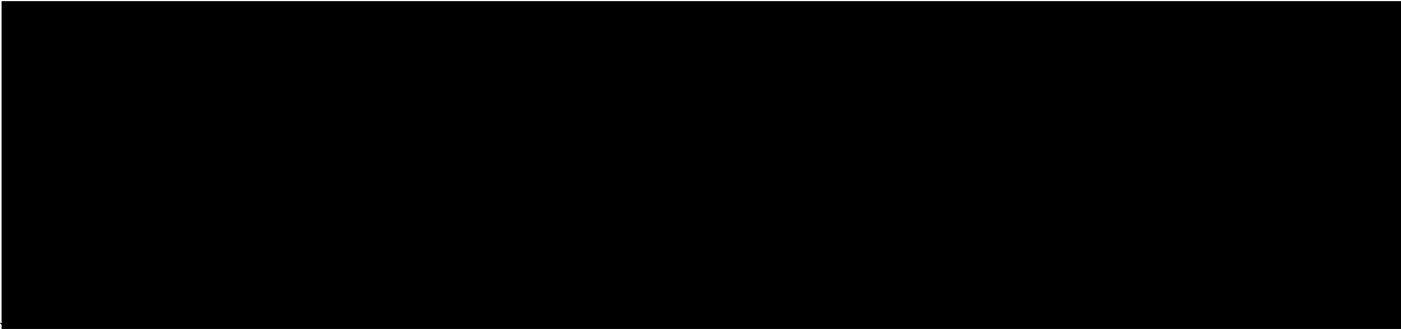

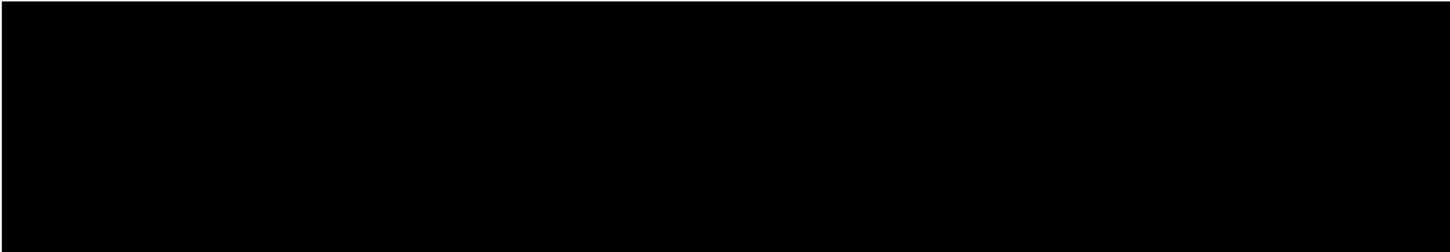

Dear Eamonn,

Thank you for this. However, Rachel emailed us last week to say that *“I think we are there! I have reviewed the plan this week and the attached has been received today in response to my comments – see below. I understand this will be submitted formally but wanted to let you know there has been communication and that I am happy to sign it off when it comes in. I am on leave next week so it may be waiting for me on my return....”* The plan she attached was a Revision G (attached to this email FYI) whereas you have just sent me Revision F. Please confirm it is G we need to use.

Kind Regards

Simon,

I refer to the above and pursuant to the grant of planning permission dated 10th April last year under your Ref. AL/107/18/PL I have pleasure in submitting the requested landscape details as amended and as now agreed with Rachel Alderton. To that purpose I attach an email from Rachel which follows recent emails and a site meeting where the necessary changes have been made in accordance with her requirements.

Condition 7 requires a detailed planting plan to be submitted for approval by the planning authority. We understand that any trees or plants which die, are removed or become seriously damaged or diseased shall be removed. Please see attached the revised detailed landscape plan for your consideration.

Condition 8 requires a landscape management plan be submitted including management and maintenance schedules which are within the amended plan attached.

Please note that I have also copied Rosemarie Dannatt also in on this email.

Regards,

Eamonn
