Dear Mr and Mrs Goddard,

I am told that planting will start this coming Monday and concentrating on that area of the boundary through which the site is most visible from Marsh Lane.

Kind Regards

Dear Mr and Mrs Goddard,

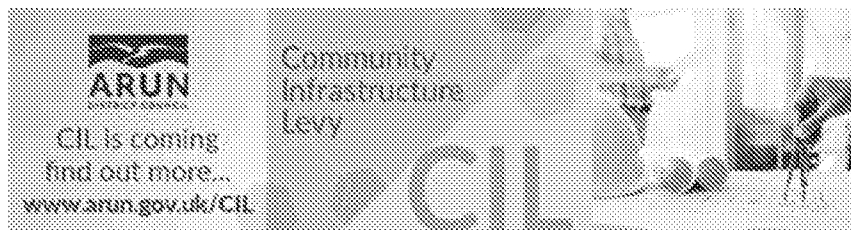

Unfortunately Rose is still ill as otherwise I'm sure she would be driving this forwards. I will speak to the agent to ascertain their timescales for planting.

Kind Regards

Dear Mr Davies,

Nyton Stables

Thank you for informing and up dating us with regard to the new landscaping plan which has been Accepted by ADC, that is good news. Our neighbours have now viewed this new plan and all seem very happy with what has been proposed.

In respect of this, there will surely be no reason why this cannot be implemented now, before the end of this planting season. Can you tell us if ADC are driving this forward as a priority? The developers have had almost a full year now to prepare for this since permission for further development was granted in April last year.

As you will know, we have been in correspondence with Gillian Keagan, and we do need to let her know that things are progressing satisfactorily toward a conclusion. Mrs Dannatt did mention I believe that there would be photographic evidence of this, which I presume she intended sending us. If that is the case, that would be most helpful. Could you also update us on what the servicing/inspection agreement is which we believe was attached to the condition.

We also believe that the lighting that affects us was being investigated with the object of bringing it in line with the lighting conditions. An update on that would also be appreciated.

I'm sure you will be as pleased as we will be to finalise all outstanding issues regarding this development.

We thank you for your continued assistance in this.

Kind regards

Phill and Rosy Goddard
