Ref: Nyton Rest

To whom it may concern,

I write with regards to our occupation at Nyton Rest Caravan site for our seasonal workforce. Pro-Force is a labour provider to the agricultural, horticultural and fresh produce industries. We provide seasonal labour to some of the largest farmers and growers all over the UK.

We have a number of accommodation sites over the South Coast providing staff for clients including:

- APS Produce
- RV Emeries
- Vitacress
- Newey Horticultural
- Barfoots of Botley

The owners of one of our largest sites, South Downs, where we accommodated over 400 staff, sold the site to local developers. This resulted in us being unable to accommodate the required number of staff, many of which are key workers (performing skilled, essential roles for our client base) and therefore desperately required somewhere to house them.

If it had not been for Nyton Rest, we would have had a number of key staff who would have had to return home and not been able to work.

Our staff are performing key roles in supporting British farming, and ensuring we are able to provide them with affordable and safe accommodation is crucial. Our partnership with Nyton Rest and their team is working well, our staff are happy, and the accommodation meets both ours and their needs.

We are hopeful we can continue with this partnership for many years to come, as it's crucial for our ongoing labour supply to our client base in the area.

If you require any further information, please let me know.

Kind regards,

Siobhan Marsh
Compliance Manager
