F.A.O Mrs S Honney-Bayes

Dear S Honney- Bayes,

Ref: AI/62/11/DOC

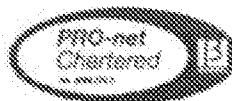

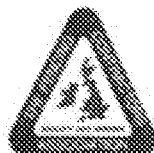

Re: Nyton Spinney Nyton Road Aldingbourne PO20 3UL

Refer to your letter ref Nyton Spinney about the colour of fencing is to British Standards B172 tanalized Natural Colour, we do lots of work for other Councils and housing association and have never had any complaint of the colour of materials, please see enclosed sample and colour of wood used.

If any further information needed please contact me Mr Paul Wingate I will be happy to help.

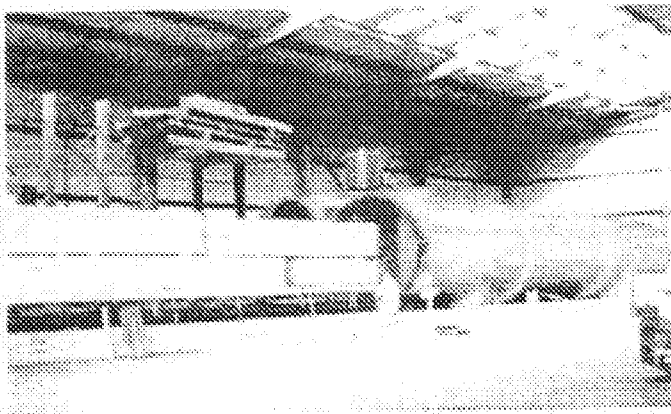

Regards

Mr P Wingate

What is Pressure Treatment?

The days of timber dipped in creosote and water based treatments have now gone.

The technology of timber treatments is now a science of its own. The photographs show the major investment our suppliers have made to give you pressure impregnated timber to meet environmental and industry requirements.

This treatment gives an excellent impregnation into the timber to give a desired service life of 15 - 20 yrs subject to ground conditions. All fencing materials supplied to our customers undergo this treatment.
