Planning application for a new dwelling AH/62/19/AL
in the garden of 'Sundown' Lillbheath Rd, Fintress
that must be in by Sept. 21st.

Dear Sir

I am concerned that there should be more
planning in this Road, Lillbheath Rd, Fintress

In 1965 we had a very serious escape
of Water from the Portsmouth Water Board
all houses in the vicinity were affected. The
two houses most affected, were either side of the
proposed application Oaklands & Sundown, all
houses in the immediate vicinity were worthless
mouldering ruins, who is to say that around holes
under the proposed site? There were large holes
in the Road and there are still holes in the
road here opposite side of the Rd.

If the Building line is maintained the use
of the proposed low property would be very near
the cell, which is to the rear of the application
proposed. Surely this is a good idea?

As we are in the southern boundary of the
National Park, we just ~~are~~ surely there
is a restriction on 'planning', as to how
many houses, should be in this Road?

Thank you for your help.

Yours sincerely
