Dear Ms Bridges,

Thanks for this.

However are you able to mark on where the lodge would go as from the current block plan submitted (below) it would appear outside this yellow edged area.

Thanks
Amber

Dear Amber

I have attached a plan of the site. It is highlighted in yellow. Google maps shows it overgrown but it has been cleared. This clearly shows where the sports pitches are in relation to the site. This area is now fenced off completely and will be used for educational purposes. This area has always been an educational area.

Many thanks

Kind Regards

Dear Ms Bridge [REDACTED]

I am the officer [REDACTED] Village Academy.

I have received comments from Sports England which I attach and have been uploaded online. Unfortunately they currently have an objection but have requested additional information.

I copy what is requested below.

'Please therefore could the following information be provided as soon as possible:

1. A plan showing the development's relationship with the existing playing pitches on this part of the site. The proposed timber lodge appears to be sited on part of the playing field that has been marked out for formal playing pitches in recent years. However it is not possible from the drawings and information submitted to identify what the impact of the structure would be on those playing pitches and whether, if they are affected, that the pitches together with adequate safety run off areas can be satisfactorily re-provided. '

The link below may also be of assistance.

Sport England's Playing Fields Policy and Guidance document, which includes the type of information required in order for us to evaluate a planning application against our policy, can be viewed via the below link: https://www.sportengland.org/how-we-can-help/facilities-and-planning/planning-forsport#playing_fields_policy (see Annex B)

Please are you able to provide me the additional information so I can reconsult them as we can't proceed with an outstanding objection from Sports England.

Thanks
Amber Willard
Planning Officer
