Corinne,

Could you print and add this email to the file for Portal Ref PP-04293995 please.

From Andy Sutcliffe -- "My clients have decided not to install the glass roof over the rear doors at present, so please will you confirm that condition 4 can therefore be set aside with regard to commencement and details submitted for your approval should this work be carried out in future."

My response to him -- "As regards your question over the glass roof, please note the wording of condition 04: *"No development shall commence unless and until details of the construction and materials of the proposed new glass roof have been submitted to and approved by the Local Planning Authority and the new glass roof so approved shall be constructed in accordance with approved details."* Technically, you cannot commence any part of the development without satisfying the requirements of condition 04. However, you could make a separate application to vary the requirements of condition 04."

Ta :-)

Kind Regards
