Hi Karen,

By means of an update, the company employed to undertake the CCTV survey (Freeflow) have visited site a few times over the last week or so. Each time they have been unable to survey the pipe as the water depth within was about $\frac{3}{4}$ of the way up the pipe.

I visited site today to inspect with our groundworks contractor, they confirmed they can help as they have their own CCTV equipment and will monitor the stream daily and undertake the survey as soon as the water level drop sufficiently.

On this basis, can the EOT be until 13th December?

Regards

Darren
