Good afternoon Hannah

Attached are the reports for the condition applied. Hopefully this will then get the approval required to commence the work.

I couldn't remember if I send them to you or someone else.

You have been very helpful during the whole process, thank you

Kind Regards

John Wilson

<Storm Water Calculations_0.5 l_s.pdf>

Sent from my iPhone

Thank you Hannah

Hopefully fingers crossed it will be the end of next week

Will send over once complete

Kind regards

John

Dear John,

Thank you for advising. I can allow additional time to the 18th April to submit the required information – if unable to be submitted to us by then I am afraid I will need to proceed with refusing the application and requesting you resubmit when the information is available.

Kind regards

Hannah Kersley (she/her)

Good afternoon Hannah
Time frame, definitely should be complete within the next month. So if an extension could be agreed that would be ideal.
As a resubmission is not ideal
Kind regards
John

Dear John,

That should be ok – please could I just check how long you anticipate it'll take for the missing information to be available? We are willing to allow additional time, however if it is expected it may take another month or so until the information is available, we will need to recommend withdrawing the application and reapplying once you have all the needed information to hand.

Kind regards

Good morning Hannah
Please can I have an extension of time for the
drainage Doc please. As I have had to request the
work from a different company and this has
created a delay. I do apologise
Kind regards

Dear John,

Thank you for your email.

I can advise that we will allow
additional time on DOC
applications relating to drainage.
This is within reason, but as we do
tend to find that drainage
consultations take a longer time
than many other consultees, we
are more lenient with allowing a
couple attempts to discharge the
condition under the same
application.

Kind regards

Good Morning Hannah
I have just been on my recent application for surface water condition. (AL/6/25/DOC) I have read Sarah Burrow objection, as still information missing. I have spoken to Sarah and have been made aware of the stuff that's missing.
I'm on the case and hoping to have an extension if necessary to get the relevant information on the application. As ideally I don't want to have to reapply again. Is this possible
Kind regards
John
