Dear Simon,

How are you getting on with this application and do you need an extension of time.

I did note that one resident states that the traffic figures we submitted are incorrect. That is not the case. Until a few months ago the grain store was used for storing grain for this and other farms in the locality and machinery used on this and other farms run by the family was also stored here.

Before use as a grain centre the site was used for a dairy herd and again generated a significant amount of traffic. Similarly, the use of the former buildings that occupied the site of the live/work units generated a lot of traffic (Far more than the live/work units do).

The buildings are no longer required as storage is now taking place elsewhere, hence their availability.

All of the figures submitted to you were provided by the farm manager.

If you have any queries or concerns please let me know.

Kind regards

Liz
