Subject: Planning Reference: AL/75/21/PL

CAUTION: This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

Dear Mr Davis,

I have submitted a comment on the planning portal in relation to AL/75/21/PL - Lidsey Lodge Farm, Sack Lane I noticed that the deadline for comments had passed but wanted to comment on the documents that had been added to the application just a few weeks ago and wondered if you would mind me contacting you.

Reference Drawing No: 2021-6347-002, 2021-6347-003, 2021-6347-004, 2021-6347-005

The newly submitted swept path analysis is not carried out using accurate data and does not reflect the true width of the made road surface. The measured width of the made surface of the road is only 3.2m. The plans have not correctly reflected the location of the walls, grass verges and the obstructing features such as telegraph poles, trees and the raised bank that would impact visibility.

In particular drawing number 2021-6347-002 - shows that two cars are able to pass each other on Sack Lane which is not possible.

I would object to these drawings being used to support the application without being verified with further survey or verification

Many thanks for your time

Jenny Brooker
