Response to Planning Application

From: Arun District Council Greenspace

Date: 04 August 2021

Application ref: AL/81/21/PL

Description: Demolition of existing building & erection of 5 No houses comprising 1 No 4-bed detached, 2 No 4-bed link detached & 2 No 3-bed detached houses with associated access & parking (resubmission following AL/72/19/PL). This site is in CIL Zone 1 & is Zero Rated.

Location: Ryefields Farmhouse Oak Tree Lane Woodgate PO20 3GU

Determining Authority: Arun DC

Summary recommendation: Recommend **no landscape objection** to the proposals.

Comments

Relevant landscape designations:

The site is adjacent to other residential development, with access proposed off Oak Tree Lane.

There are no physical, visual, historical or cultural links, protected landscapes, scheduled ancient monuments, or Historic Parks or Gardens associated with this site.

Response

I reiterate my comments and recommendations under application AL/118/18/OUT, AL/72/19/PL (Refused) which stand and are still valid.

This application now seeks approval for 5no dwellings a reduction from the previous application (10 dwellings)

This application makes no reference to the wider setting of this development and how the connectivity to the wider community will be addressed, this is an area that I would recommend further submission is made.

As this is a proposal for a smaller development of up to 5 dwellings there will be no requirement for POS or play on site.

There is a requirement for any scheme, in accordance with policy to be of High Quality Design, infill development should not compromise this requirement. The emerging landscape design aims should be:

- To design and implement a scheme that reflects and incorporates elements of its surroundings and enhances the atmosphere of local distinctiveness.
- To create a visually pleasing and interesting landscape for owners and visitors to the development.
- To enhance the landscape quality of the site when viewed from the surrounding area.
- To provide a planting scheme that includes native species to blend with the surrounding location, enhance biodiversity and create enhanced wildlife corridor opportunity.
- To provide a sense of flow and cohesion between the different elements of the landscape, buildings, open areas and surrounding environment.

Forming part of any decision consideration or as a minimum reserved matters a full landscape scheme should be submitted for approval, detailing species choice, position, densities and size at time of planting. This should be plotted in plan and list form and in relation to the trees and vegetation to be retained in the locale, so that a clear picture of the proposals can be seen. These details are required to assure the adjacent land setting is maintained, the setting is uncompromised and the proposals are appropriate to its setting.. The landscape scheme should maximise the biodiversity of the site with the inclusion of native species and the retention of a variety of habitats.

Any considered tree removal from this site should be agreed with Arun District Councils Tree Officer. Before construction, a tree protection scheme must be in place for any retained trees including trees whose root protection areas fall within the construction zone from neighbouring land. Any agreed removed trees should be mitigated for allowing for inclusion of native species for biodiversity purposes and fitting to the setting.

Impact

The potential impact of the proposals would blend into the location with the implementation of a robust landscape scheme to support this.

Mitigation/requirements

A full landscape scheme will need to be submitted for approval, or conditioned as part of any approval.

In line with Policy ENV DM5 of the Arun District Local Plan information on Biodiversity Net Gain will need to be provided. Further information would be required demonstrating what will be included within the scheme and what level of net gain will be created.

Recommendation/Conclusion

I would recommend **no landscape objection** to the proposals, subject to the submission for approval of a detailed landscape scheme as above.
