Hi

I have passed this to the drainage consultant who said he would respond by tomorrow.

Regards

David

Dear Mr Atkins,

Please see below the most recent comments of Drainage Engineers on your application.

I want to remind you as well that the deadline is tomorrow and Laura is the only person dealing with drainage this week.

However, if you can satisfy her requirement and she would be able to respond the latest tomorrow midday, the condition can be discharged.

Kind regards

Maria

Maria Tomalova

Hi Maria,

I have had a look at this in Sarah's absence. I have the following comments on Condition 3:

- The surface water drainage layout drawing notes state infiltration between 1.66×10^{-6} m/s and 1.226×10^{-4} m/s. The calculations use 5.633×10^{-5} m/s, please provide justification as to why this rate has been used in calculations.
- Please can further details of the previous ground investigations be provided. E.g. dates, dimensions of test pits, locations of test pits, etc.
- Please can finish and formation levels be labelled on plan.
- Please can the type of aggregate be labelled on the construction detail drawing.

Kind regards,

Laura Gibbons

Drainage Engineer

Engineering Services

Please note that I work Tuesdays 08:00-16:00 for Arun only.
