This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals which include up to 5 residential units or extensions to single units accessed from roads that do not form part of the Strategic Road Network (SRN). As such the comments provided by Planning Services should be considered to be advice only, with respect to this planning application.

This proposal has been considered by means of a desktop study, using the information and plans submitted with this application, in conjunction with other available WSCC map information. A site visit can be arranged on request.

I refer to your consultation in respect of the above planning application and would provide the following comments.

This proposal is for the installation of a phase 8 1.5m high street pole c/w wrap around cabinet & 3 further additional equipment cabinets at the corner of Westergate Street and Meadow Way Aldingbourne.

The proposed telecommunications equipment is to be located within highway boundary.

The proposed location is not anticipated to obstruct visibility for vehicles making use of the Westergate Street and Meadow Way junction. Nor will the location obstruct the free flow of pedestrian movements in this location.

The Statutory Undertaker will need to submit the necessary notification to the Highway Authority independently and any traffic management would need to be agreed with the WSCC Highways prior to works taking place.

In conclusion, the Local Highways Authority raises no highway safety or capacity concerns to the proposed. If the Local Planning Authority is minded to grant planning consent the following informative note would be advised:

Informative

The applicant is advised to contact WSCC Highways to obtain formal approval for the works on the public highway and to agree the required traffic management [REDACTED]
