

Essential maintenance is being carried out to the planning, building control and local land charges database during the week commencing 12 April 2021.

During this time there will be no public or staff access to any records held within this database, and it will not be possible to carry out any of the following tasks via the Arun website:

- Research planning and building control history
- View any planning applications, plans, agreements, tree preservation orders or competent persons data
- Submit building control applications
- Submit planning application comments
- Report any planning compliance issues

The publicity and consultation period for all planning applications that fall over this week will be extended by a further week to ensure no one is disadvantaged.

All other aspects of planning, building control and local land charges will be limited during this week and you are strongly advised to contact the individual departments before 12 April 2021 for specific restrictions during this time.

Subject: Highways England Response (HE ref. 90688 #12775) re. AL/9/21/DOC - Land West Of Fontwell Avenue

For attention of:

Maria Tomalova

Site:	Land West Of Fontwell Avenue, Eastergate, PO20 3RU
Proposal:	Approval of details reserved by condition imposed under ref AL/117/18/PL relating to Condition No 3 - Construction Management Plan.
Your Reference:	AL/9/21/DOC
Highways England's Reference:	90688 #12775

Dear Ms Tomalova,

Thank you for your email of 2nd March 2021 consulting Highways England on the above discharge of conditions. Please note that Highways England's standard response time is within 21 days.

Highways England has been appointed by the Secretary of State for Transport as strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the strategic road network (SRN). The SRN is a critical national asset and as such Highways England works to ensure that it operates and is managed in the public interest, both in respect of current activities and needs as well as in providing effective stewardship of its long-term operation and integrity. Highways England will be concerned with proposals that have the potential to impact on the safe and efficient operation of the SRN, in this case the A27.

Having reviewed the attached Construction Management Plan, we note that there is no reference to the sheeting of loose loads and request that it is included in the final Construction Management Plan. Otherwise, Highways England is satisfied that Condition 3 of AL/117/18/PL can be discharged as construction of the proposed development will not materially affect the safety, reliability and/or operation of the strategic road network (the tests set out in MHCLG NPPF 2019 Para 108-11 & DfT Circ. 02/13 Para 8 -11) in this location and its vicinity.

If you have any queries regarding our response, please contact us at

Regards,

Sent on behalf of Kevin Bown, Spatial Planning Manager Area 4

Richard Franklin
