Dear Mr & Mrs Hem

Thank you for your letter and
agreeing to work being undertaken
on your trees.

I have never complained about the
trees in your garden but these last
few years they have been allowed to
grow out of control.

When I first moved into my bungalow
the people in your property kept the
saplings at a reasonable height allowing
some light to enter my property but
now they are almost as high as the
mature preserved trees. This is a lot of
the problem.

I am sorry you are having trouble
with rats. I never see any.

~~But~~ But as requested I have
removed the branches stacked
against the fence.

Yours
Mrs. A. Cameron
