Dear Mr. Crowther,

I write to you as my most recent contact, in planning.

Attached is an application to fell a Leylandii, in a conservation area, but not subject to a TPO. The submission is in your standard (4pp.) form and is accompanied by an attestation, supporting my concern that the tree might bifurcate and fall [an adjacent Leylandii, fell on my house on March 31, 2016].

For a fuller description of the proposed work, you may wish to consult your (own) estimate c.f. RICHARD MARTIN, dated 24.01.2018, ref. no X 37949.

We are open to any inspection of A.D.C., subject to your forwarding me of the date.

We are, further, open to your advice on the matter of a replacement tree (if this is relevant to a non-TPO application) instead of my proposal of an existing YEW (see § 7 of application, (T2)).

I trust I have not put too little on the pro-forma and too much in this letter.

Yours faithfully,

- c.:
1. Letter from ARUN TREE
 2. APPLICATION.
