Attachments: 16, Barrack Lane Planning Amendment Sheet 2a of 5 .pdf; 16, Barrack Lane Planning Amendment Sheet 5 of 5 .pdf

Following our telephone conversation I am pleased to attach the amended plans Sheet 2a of 5 and Sheet 5 of 5

The width of the single storey rear extension is 7.55 metres.

There may be small discrepancies between plan, elevations and block plan due to the scanning process and the thickness of nib I draw with particularly on the block plan.

After a long process of trying various scanning settings on my machine I know these attached plans are the most accurate that I can give you.

Hopefully this is all now acceptable.

On Tuesday, 12 May 2020, 13:51:23 BST, Nicola Moore [REDACTED]

Good Afternoon

Thank you for the amended Car Port elevations. Apologies for any confusion, the elevations I was referring to in my email of 6th May, are the main house. Please can you check the North, South & West aspect elevations, as we believe the elevation currently labelled West, should be North. Please amend accordingly, and re submit.

With regards to the Ground Floor extension, I have now checked these with Daun and a planning officer. We have measured the width of the ground floor extension on sheet 1 of 5, at 7.55m, the scale shown for this is 1:50, however, when the width of the ground floor extension is measured on sheet 2 of 5, it is 3.8m and the scale shown is 1:100. On the Block Plan, the measurement of the width of the ground floor extension, at a scale of 1:500 is 7.45m

Please could you check these scales and amend accordingly. Any amendments can be crossed out and hand written.

Kind Regards

Nicky Moore

Good Morning

With reference to our conversation yesterday, I have asked Daun Johnson to check the measurements, and I will let you know if anything further is required.

In the meantime, please could you confirm the North, South and West aspects on the Proposed elevations are correct, as on checking we think the West elevation should be North, and the sides West and East?

Kind Regards

Nicky Moore

I still can't see anything wrong.

This is a re-submission of the original plans which were accepted.

Are you confusing existing and proposed because the elevation measurements [1:100] correspond with the existing elevation.

Good Morning Mr Butcher

I have checked the plans again, and the measurements I have are:

Proposed rear extension elevation (ground floor) at 1:100
floor) at 1:50

Door = 1.78m

Window = 0.89m

Width = 3.81m

Proposed rear extension floor (ground

Door = 3.50m

Window = 1.74m

Width = 7.60m

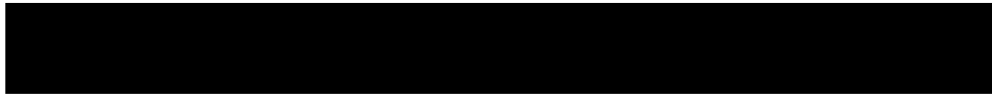

Please could you check these measurements, and confirm if they are correct or amend accordingly.

Kind Regards

Nicky Moore

The plans are correct.

There is a step in the existing brickwork by the store which means the south elevation appears shorter.
