

3 West Avenue, Aldwick, West Sussex. PO21 3QN
Householder Application
Lidsey Drainage Statement

Foul Drainage – The proposed works are only slightly larger than the existing dwellings footprint and an existing kitchen, utility area and bathroom exist at the property. The amount of additional waste water will be minimal as the occupancy of the dwelling as a whole will not increase and the utility facilities are just being relocated. The foul drainage will connect and discharge into the existing dwellings system and then into the mains sewer.

There will be no net increase in flows to the foul sewer resulting from these proposed works.

I trust that this information is satisfactory, should you have any comments or queries please do not hesitate to contact me.
