Hi Simon,

Further to last week's site meeting, please find enclosed the response from the noise consultant below and updated noise report.

Please could you forward these details onto the Environmental Health officer.

Many Thanks

Kind Regards,
Rebecca Blundell

Rebecca

Following last week's meeting with the EHO, we agreed that the noise generating elements of each unit, was in fact the evaporators inside only (ie. no external units).

The attached report gives the much lower noise value for the evaporators and concludes that the noise complaints will now be very unlikely.

Kind Regards
John
