

For the attention of Zoe Toppin

Further to Mr Crowther's letter via e mail dated 15th May 2020 the attached documents support the above referenced 'Application for Works to 2 Trees ,that are subject to a TPO'.

I believe the documents contain the required information for a decision to be made . However if you have any questions please call or e- mail me and I will do my best to answer

them.

As indicated on the attachments the last Application for Works to our trees was made in 2013 . This is a similar application but no work is planned to the Pillar Cherry at this time.

The measurement of the 2 Tree(s) which have grown together over the years , is very approximately 4/5 metres in diameter of a generally spherical shape.

Yours sincerely

Roger Selway
