3rd May 2022

Dear Sirs

Ref: Planning application: Front Porch and kitchen extension at
25 Craigweil lane, Aldwick, Bogor Regis Arun PO21 4AN

I have pleasure in uploading the following to the Planning Portal

1. Household planning application form
2. CIL form
3. Drawings A263-01, 02A, 03A & 04 later is a block/site proposed plan
4. Location Plan
5. Guidance photograph and notes plus link to 360VR imaging
6. The planning Fee paid online.

I am the agent acting on behalf of the applicant Mr M Goodall & Ms L Goodall. Should you require to visit, then best to contact me directly and I can arrange access for you with the applicant.

We decided, given the current pressures on planners rather than make a pre-application submission to put this planning application as it is a straightforward front extension, and as being a change to that elevation, we be happy to secure a decision.

Please note all plans and elevations drawings are at a scale of 1:100

The site/proposed plan is at a scale of 1:500

The location plan is at 1:1250

We have removed any statement "Do not scale from the plans" a common administration request.

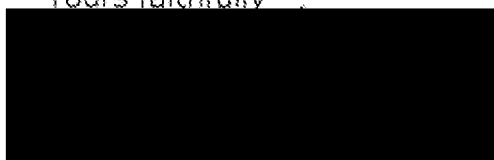

The link to the 360VR is a third-party hosting site Kuula and no software is required to view the 360 VR imaging. This will allow you to view the front areas of the property in a 360 (all-around view) including what is directly opposite.

Chartered Building Surveyors

We like to avoid any issues or a refusal so if there are any concerns you have with the application, please contact us as the agent first. If you require an extension to the normal planning time, we are happy to grant all reasonable extensions.

Yours faithfully

Garry J Taylor MRICS
