Subject: Tree removal 3 The Byeway, Aldwick Bay Estate Ref: AW/11/14/TC

Hi Karen,

Following our telephone conversation, I am now writing to inform that the Cuprocyparis *leylandii* hedge that is the subject of this application was never planted as trees.

It is an overgrown hedge that has been left untended and I can confirm that it was not planted prior to 1968.

My client is worried, that should we have another set of winds as we did recently that the trees may blow over. So your immediate attention would be appreciated.

Kind regards

Andrew Fenney
