Comments On Application:**Grp 1 – Golden Leylandii** Height – 4m : Avge Spread – 2m : Age – Young

- All have been topped out in the past and the salt laden winds straight off the beach have meant that they grow at an acute angle into each other - which gives the impression that they have become dislodged.
- These are poor quality trees that are not suitable subjects for a TPO.

CONCLUSIONS:**T15 – Whitebeam*****Raise No Objection to*** : the felling of 9x Golden Leylandii as shown on the plans and in the photograph submitted with this notification.
