Subject: AW/126/26/T

Reference: **AW/126/26/T**

Proposal: Crown reduction to 3no. holm oaks (T1,T2,T3) to leave a height of 17.5m and spread of 6.5m.

Location: White Haven, 35 The Drive, Aldwick, PO21 4DT

I have considered this application by means of a desktop review. Previous consideration from site and familiarity with surrounding area provide further insight to the proposal.

I have undertaken a review of Tree Preservation Orders which may affect this plot. My understanding is that only Bognor No2 (Area Order) could apply. I am confident these trees would not have been established at the time that Order was made (1958).

As the trees have a stem diameter >75mm at 1.5m height and grow within a Conservation Area, **this application should be considered a Town & Country Planning Act 1990 (as amended) s211 Notice.**

I am satisfied the work is justified and will not result in undue harm to the character or appearance of the conservation area.

I raise **No Objection** and see no reason to make a Tree Preservation Order.

Informative:

Although they may respond with vigour, holm oak has a poor tolerance of hard pruning and long-term vitality can be severely affected. The optimum time for pruning is mid to late winter.
