Dear Sir or Madam,

With regards to my
neighbours application for extending the size
of their house whilst I understand their
reasons for wanting to do so I do have grave
concerns over how it will affect my property
which I will list - my house was built as a
lined property therefore a external wall
of it is in their rear garden. - They wish
to build within 10m. of my wall. - Therefore
I would not be able to have any repairs
done if need be to the wall or the eaves
of my roof. -

When Their New Foundations are Being
excavated could this cause Damage to mine?
And would there be any possibility
of surplus water from their roof causing
my wall to become damp?

I would be very glad of your help
in this matter,

yours faithfully

P.S. I also feel that this
will devalue my property
