CAUTION: This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

All good thank you and hopefully you are too.

I am pleased to attach a supplementary plan and photos as requested.

Given the shape of next doors conservatory it's not easy to determine the correct 45 and 60 degree angles as you will note.

'Snooping' through the neighbour's conservatory windows on the photograph it would appear that the angled part of the conservatory is used as the sitting area with the other part, nearer our proposal, used for more practical purposes.

If you require anything else please ask.

Dear Bryan,

I hope this email finds you well.

I'm emailing regarding the application for an extension at 6 The Pound, Aldwick (AW/132/22/HH). Would it be possible to have a 45 / 60 degree line added to the proposed plans? We mainly need this taken from No.7 as this appears to be the property most at risk of impact from the proposal.

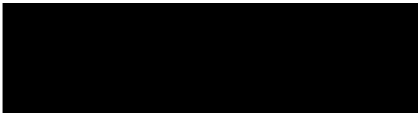

I was also wondering if you would be able to send some photos over of the rear and garden of the property?

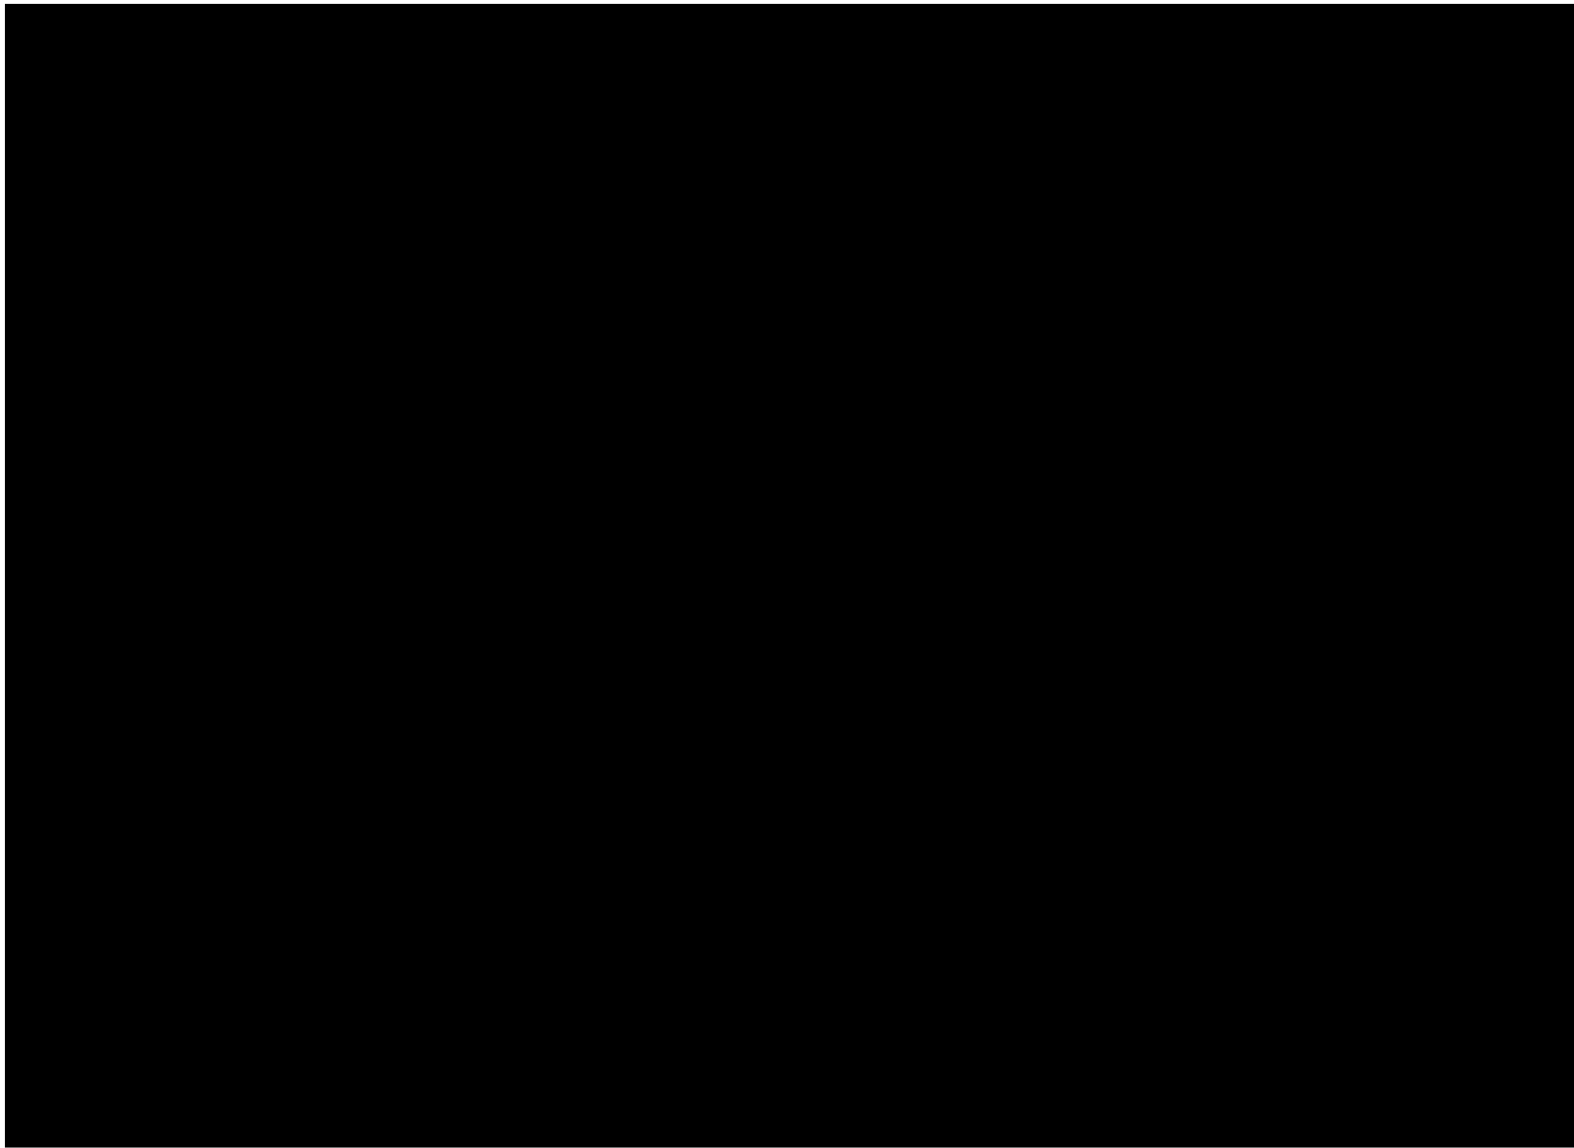

Kind regards

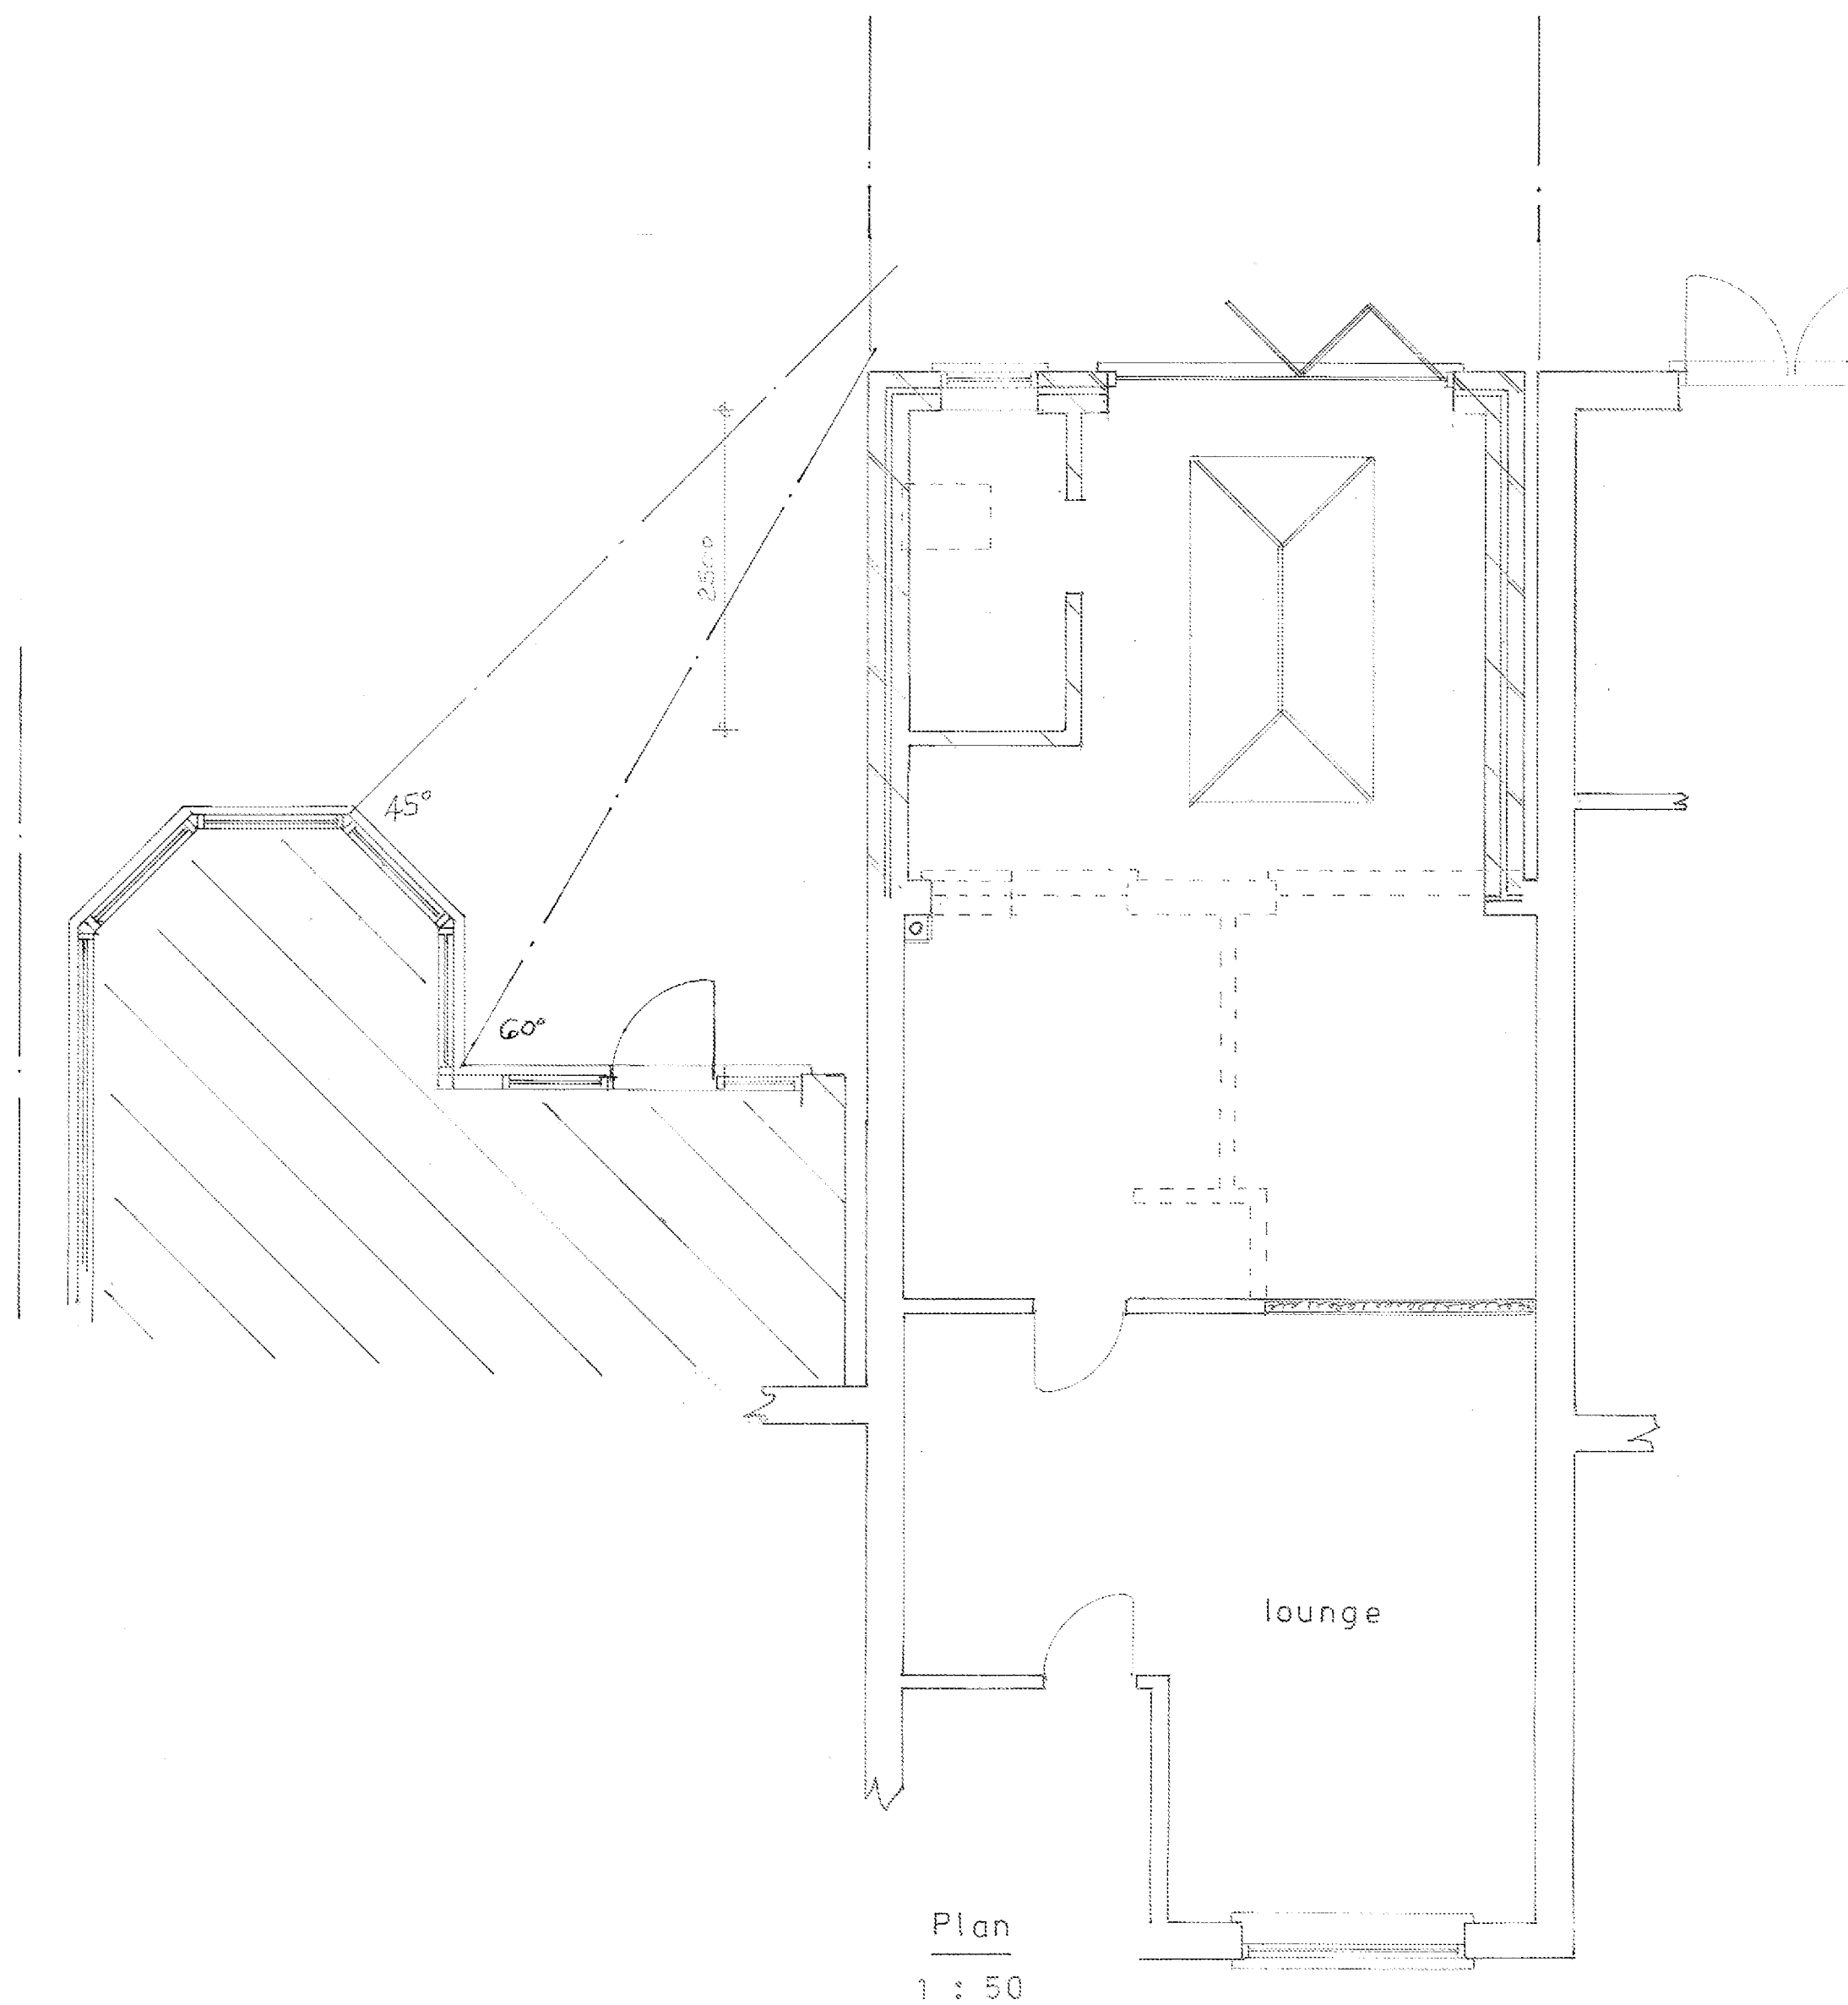

Hannah
