Subject: 90 Rose green Road Aldwick - AW/138/17/PL

Dear Simon

Ref **AW/138/17/PL**

Further to your email yesterday with attached comments from your conservation officer, please see attached some amended drawings which completely address the concerns that were raised.

I was a little surprised about the comments as the site is not in a conservation area and by admission from your conservation officer is far enough away from the listed building as not to have any great impact. I personally did not feel the need to provide a homage to the Victorian period of architecture as your conservation officer was requesting and even to the point of criticising dormer windows for providing light to a bedroom especially as the dictionary meaning of a dormer window is to provide light to a room for sleeping.

Anyway to avoid any further debate or argument, I have made all the amendments she has suggested which I hope now overcomes her concerns and that the application can now proceed with your recommendation for approval albeit that it will now have to go to the October meeting.

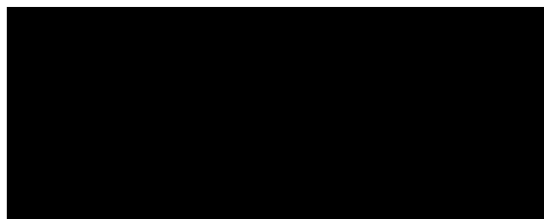

I do not know whether you would send a copy of these amendments to the Parish Council but that might be helpful as it would give us the opportunity to speak to them about the scheme.

Please get back to me if you have any further queries.

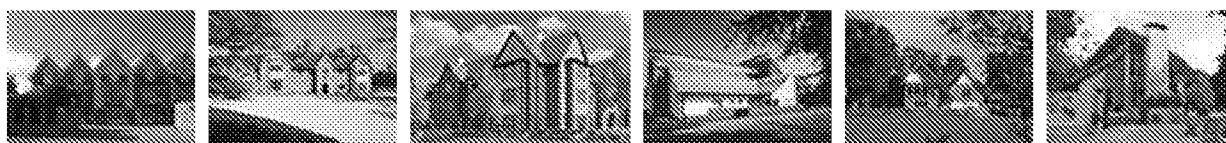

Regards

Steve
