

---

Hi Zoe

Thanks for your help on the phone just now. Please see below my response to the two questions posed in your 'further information' letter of today's date:

Q: 1 No Field Maple - please confirm if this is a Crown reduction and provide the proposed height and spread measurements, in metres after pruning.

A: Yes, this is a crown reduction. The tree surgeon estimates the final height to be between 10.5 and 12 metres and the final width to be between 4.5 and 6 metres.

Q: 1 No. Oak - please provide the measurement of the stump to be in metres.

A: I estimate the stump of the oak to be between 2.5 and 3 metres.

Best wishes

Julie
