

Proposed tree works at 28 The Drive, Craigweil – January 2021

Mark Warwick (Arun Tree Officer) made an inspection of the trees for an earlier application (AW/28/18/T) in January 2018. He noted that tree T4 (T5 on the 2018 application) was growing in close proximity to "an aged built structure". This is a flint and brick wall associated with the original Craigweil Manor. He concluded that the tree will rapidly outgrow its location and should have its growth restricted. Recent inspection of the tree shows that a crack has appeared adjacent to the tree as shown in the photographs below, taken 13.01.2021. The owners have advised us that they are monitoring this crack and have given us permission again to reduce the height of the tree as per ADC advice.

Works proposed for trees T1, T2 and T3 are in accordance with the Tree Officer's recommendation in January 2018 that *'Repeat operations such as being asked for by the applicant will be necessary throughout the remaining life span of these trees, to achieve a reasonable degree of structural integrity appropriate for their location'*.
