

ARBORICULTURE IMPLICATIONS

7TH MAY 2019

ADDRESS:

Kings Mews,
St Georges Gardens,
Queen Field East,
Bognor Regis,
PO21 5SN.

Tree(s) – (G1) Oak trees

Works – Reduce back branches on north-east aspect only (approaching flank wall of 10 St Georges Gardens) to achieve a maximum of 2.5m clearance from said dwelling. .

Reason – Trees are encroaching onto the property/guttering creating minor damage and dropping twigs and leaves into the gutters.. Need to achieve a 2.5m clearance for ongoing management and maintenance of the trees.

Thanks,

Jess Channell
