Tree survey at 3 The Orchard Aldwick

T1 Mimosa

This tree is located at the front eastern side of the property.

It's a medium mature tree and has been left to grow without any husbandry which has caused several large branches to grow out and either lay on the ground or touch this property or the neighbours.

This tree is in the wrong location due to its rapid growth capabilities after pruning which will mean it could cause problems to both properties in the years to come.

The proposal is to fell this tree and possibly replant a slower growing specimen

Yours Sincerely

Richard Sinclair
