

Hi Zoe

With regards to the attached letter I can confirm that the tree in question is a Monterey pine and not a Corsican pine as stated on the TPO. I have attached 3 pictures which show the bark of the tree which is mainly grey and brown with a reddish tinge, the needles which are bright green and in groups of 3.

When the TPO was originally issued in January 2014 we were surprised as no-one from the council had been to our property to view the tree. A local tree surgeon advised when working on the tree last year that it was not a Corsican pine as stated on the TPO but a Monterey.

I hope the attached helps if I can assist any further please let me know

Many thanks and

Kind Regards

Peter Carmichael
