4. Trees Ownership

The applicant is the owner of the trees

5. What Are You Applying For?

Are you seeking consent for works to a tree(s) subject to a TPO? ☒ Yes ☐ No

Are you wishing to carry out works to tree(s) in a conservation area? ☐ Yes ☒ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s) enter its title or number below

AW/152/10

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

Eg. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

T-493 - Hybrid Poplar - reduce the height from 20m to 12m and the spread from 10m to 6m. The reasons for this work are to avoid possible damage by strong winds (the tree is the tallest in the vicinity and has a very large bough extending southeast to overhang our neighbour's garden) and to reduce the degree of shading to the fruit/vegetable section of our garden.

T-494 - Horse Chestnut - fell as recommended by tree surgeon because it is diseased and 'probably moribund'. The density of trees in this part of our garden is such that we would not want to replant in the same place, but possibly add another fruit/blossom tree nearby when we can see how much light gets through.

T-495 - English Oak - fell because of excessive shading (in association with T-490 - beech and T-491 - ash named in TPO/AW/41/10) and low amenity value. The density of trees around this part of our garden is such that we would not want to replant in the same place, but possibly add another blossom tree nearby when it is evident how much light will penetrate.

8. Trees- Additional Information

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. **Condition of the tree(s)** - e.g. it is diseased or you have fears that it might break or fall:

If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.

☒ Yes ☐ No

2. **Alleged damage to property** - e.g. subsidence or damage to drains or drives.

If YES, you are required to provide for:

☐ Yes ☒ No

Subsidence

A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, roots and repair proposals. Also a report from an arboriculturist to support the tree work proposals.

Other structural damage (e.g. drains, walls and hard surfaces)

Written technical evidence from an appropriate expert, including description of damage and possible solutions.

Documents and plans (for any tree)

Are you providing additional information in support of your application?

☒ Yes ☐ No

If Yes, please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application:

Annex1-TPO-AW-152-10

Annex2-TPO-AW-41-10
