Tree Survey Report.

Location: 7 The Drive, Aldwick PO21 4EE

Species: Holm Oak.

Height: 16m approx.

Age: Mature.

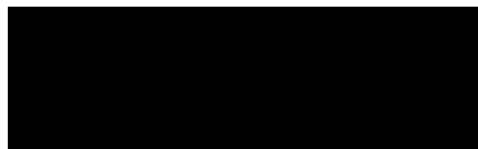

Stem dia: 1m approx. at ground level. Twin stems from base.

Condition: Crown good. Cavity at base on the west side from historic stem loss.

Recommendations:

Reduce crown overall by removing branch growth back to the original pruning points at about 11m to ensure continuing safety and admit more light to the affected properties.

Signed,

Stuart Power.
