Dear Nicola,

Thank you for your response yesterday and accordingly I have shown a smaller scale map of the area with adjacent roads as requested. I have marked on the map the position of 2 Grange Lodge, the property boundary in red and also the position of the tree in question, hopefully this will answer the questions raised.

With respect to the proposed work, the tree is about 25 to 30 meters tall by guestimate which without climbing to the top and measuring is a rough measure. It is at least double the ridge height of the neighbouring house. I would like to reduce the crown in height by up to 10 meters, then thin the remaining crown by up to 25% in order to maintain the shape and balance the tree where it has grown heavy on one side. This has to be done by sight by a qualified tree surgeon who respects the value of a beautiful tree. It is all about reduction and maintaining the shape of the tree so that it is not a nuisance to the neighbouring property and allows light into the surrounding gardens

I trust this answers your queries and look forward to hearing from you shortly.

Kind regards
David
