7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

Removal of two Leylandii trees growing on the verge to the Craigweil Manor access road outside the garden wall of No 17 Craigweil Manor on land owned by Pandrell Ltd the management company for the Craigweil Estate. The trees are close together, are now approx. 50-60 feet high, are growing into each other as well as into two beautiful Maple Trees either side of them. Their growth extends over approx. a third of the roadway so they are regularly hit by tall vehicles going into the Craigweil Manor flats including refuse lorries. The roots of one are coming to the surface of the verge next to the water main stop cock for No 17. There is the possibility of damage to the water main and other services which may be under the verge, two manhole cover are with 15 feet of the emerging roots. This has not been verified.

8. Trees - Additional Information

For all trees
A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO
Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. Condition of the tree(s) - e.g. it is diseased or you have fears that it might break or fall:
If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.

☐ Yes ☐ No

8. Trees - Additional Information

2. Alleged damage to property - e.g. subsidence or damage to drains or drives.

☐ Yes ☒ No

If YES, you are required to provide for:

Subsidence

A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, roots and repair proposals. Also a report from an arboriculturist to support the tree work proposals.

Other structural damage (e.g. drains, walls and hard surfaces)

Written technical evidence from an appropriate expert, including description of damage and possible solutions.
