Dear Ms Singh,

Further to my objection to the above planning request I wish you to note the attached picture and comment.

It is difficult to know exactly from the drawing submitted, but I estimate that the 1st floor window line will move approximately 2.2mtrs to the north, closer to my property.

The attached picture is taken from one of our bedroom windows and we have two bedrooms facing south at the same level and the proposed extension will be a direct impact on our enjoyment of the area and will do nothing to enhance the overall appearance of the said property at Number 25 the Drive (AW/159/21/HH).

As I previously commented I have reservations about the proposed extension on the first floor, but the use of dormer windows is over powering to the whole ambience of the area when this could be facilitated in another manner.

I object in the strongest possible manner to the proposed extension and use of a Dormer Window at loft level which will be both over powering but be a direct impact on our privacy.

I wish this photograph to be presented as part of the evidence on this objection.
