Comments:

The applicant has requested the reduction of the Weeping Willow and other tree pruning/felling work in the front and rear gardens. The trees appear not to be old enough to be protected by the Area TPO of 1958 and at present do not warrant individual protection by the serving a new TPO. In addition the applicant wishes to prune the overgrown shrubs *Griselinia elliptica* located behind the boundary wall to the front of the property and to fell the 2.5m high Monterey Cypress hedge located between theirs and neighbouring property. Both of these works are acceptable.

The work proposed within the application is acceptable and should be granted consent.
