Ref. Planning Application AW/162/17/PL 15 Keble Close, West Meads, Bognor Regis.

Dear Sirs,

I am writing to strongly protest against permission being allowed for the above planning record. As you can see above I live almost opposite this piece of land and when my wife and I moved here in 1994 after a careful decision it was because of the spacious plots which were around us. We look out of our lounge window and it's nice to see Green land.

I have looked at the suggested measurements and this is a sizable plot that they intend for a garden!! I feel that if its garden they want they should have considered this before recently extending their garage at the side of the house into what was their garden. This you will have records of.

I feel that somewhere there is an "Hidden Under lying Agenda" and its garden today but what will we want to put there next ??

I just feel that this is another piece of "Green land" which is going to get swallowed up and it is nice to have this attractive area to look out at, next thing you know somebody will want to build on these spaces "PLEASE" do not allow this to happen

I know that we will not be the only objectors, and can only employ that you do not allow this permission to go ahead.

Yours Truly,

A large black rectangular box redacting the signature of Mr. J. Skinner.

Mr. J. Skinner
