

Photographs of Broad-leaved Lime on verge outside Redstacks, The Byeway, Aldwick Bay Estate

The tree has grown significantly into the garden area of the new residents at the Redstacks house in The Close.

The tree is on the verge on The Byeway. The tree has previously had a crown lift to comply with Highways (c5 Metre). However, we have no records of any work being undertaken from the resident's property.

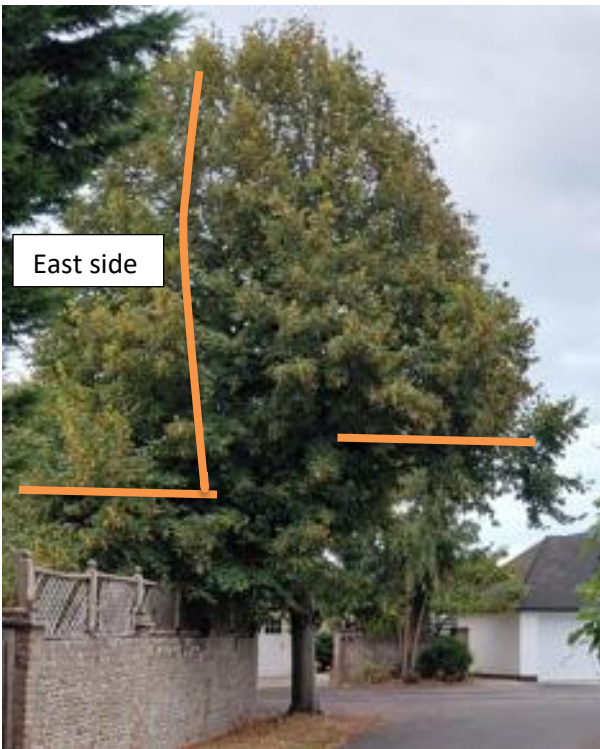

View from the resident's garden.

Permission is being sought:

To lift the crown to approximately 2.5 metres

To reduce the spread by 3 metres from 6 metres on the eastern side of the tree.

The tree will then overhang into the resident's garden by approx. 1 metre.

View from The Byeway roadside.

Permission is being sought:

To lift the crown overhanging the road to approximately 5 metres for highways compliance.

Eastern side shows the areas to be cut on the resident's side as described above.

View from the resident's garden from North

After cutting approximately 1 metre
overhanging the resident's garden
