6th June 2017

Dear Tony & Yvonne

Tree Works recommended at 47, The Drive.

Further to my visit, I am pleased to provide the following recommendations for the tree works looked at and discussed with you.

T1, T2 and T3 - These three trees: one Holly, one Cryptomeria and one Lawson, are growing at the foot of your garages north wall. The trees branches and main trunks are rubbing on the garage wall and roof. I recommend the three trees are felled.

T4 - Leylandi hedge on the north rear boundary: Reduce by approximately one Meter.

T5 - Golden Macrocarpa: Shape as has been done in the past. This will reduce the height by 0.2 Meters

T6 - Leylandi: Shape as has been done in the past, This will reduce the height by 0.2 meters.

T7 - Griselinia on the west rear boundary: Reduce the height by 0.5 Meters and prune back the easterly spread by 1 Meter.

The above works can be carried out over the summer months. If you require more details they will gladly be provided.

Yours sincerely

John
