Dear Sirs,

2, Craigweil Lane, Aldwick PO21 4AN

I have been approached by Mr. A. Painter of the above address about a problem with a mature sycamore and beech in his back garden which have increased in size markedly over the last few years and are now shading the garden to an unacceptable extent. I have suggested some fairly minor pruning of the lower crowns which should ameliorate the situation. Intended works are the removal of the lowest limbs and the reduction of one long lateral on the beech only. Spec. is defined in my planning application.

Yours faithfully,

Stuart Power.
