Product Information

QUHZ-W40VA / EHPT20Q-VM2EA

**Ecodan Monobloc 4kW Air Source Heat Pump
With Thermal Store**

Making a
World of
Difference

Our new 4kW monobloc Ecodan heat pump system combines market leading efficiency in hot water production with reliable and renewable heat provision all year round.

The Ecodan QUHZ is the ideal solution for new build homes where strict building regulations drive down the space heating demand, making the production of hot water the dominant load.

The Ecodan QUHZ operates with a market leading low noise output and built in energy monitoring as standard. The thermal store has been specifically designed to work with this system, giving high hot water output without the need to pasteurise the water.

Key Features

- High efficiency hot water heating performance
- Class leading low noise operation
- Energy monitoring as standard
- No stored water, no risk of legionella
- High hot water capacity for larger dwellings
- Pre-plumbed and wired for faster installation
- Compatible with Mitsubishi Electric wireless room controllers
- Wi-Fi control available

Application Examples

- New Build UK homes
- Cafes and Restaurants
- Dental / Doctor's Surgeries

The Tiger Overlap Apex Shed provides great storage for all garden equipment at a highly competitive market price. This overlap apex shed is in a league of its own in terms of value for money. The apex roof style provides an increased internal height giving enough room for most adults to stand comfortably inside without the need to stoop. Its classic design and striking features make this overlap shed an ideal storage space for any garden.

Access to the Tiger Overlap Apex Shed is easy with a well braced single door and stylish windows supplied as standard. It also comes complete with high grade finish overlap cladding, protected with a red cedar water based treatment. The ultra-strong 28x44mm internal rounded four corner framework provides additional structure and strength. The roof is covered with a heavy duty green mineral felt to ensure the contents of your overlap apex shed will not suffer even during severe weather conditions. Finally, the sturdy boarded timber floor and roof sections mean this value shed will outlast its lower specification competitors.

BEWARE OF CHEAP IMITATION APEX SHEDS:

Unlike many budget competitor products this overlap apex shed is built with only the highest quality materials and many garden sheds in the market simply cannot compare!

Triple Wheelie Bin Store

£135.99 Buy

SIMILAR ITEMS ASK A QUESTION
WATCH THIS ITEM TELL A FRIEND

Key Features

- Disguises Wheelie Bins in Style
- All fittings and instructions included
- Easy to Access Bins Via Lid and Latched Doors
- Pressure Treated Timber for Longevity
- Individual Lids for easy access
- Can be Painted and/or Stained for Added Decoration
- Suitable for bins with up to 240 litre capacity

Description

The Triple Wheelie Bin Store provides easy access to up to 3 dustbins whilst creating an attractive and stylish way of hiding away your unsightly Wheelie Bins.

This Triple Wheelie Bin Store is made out of strong and durable timber slats, which provides plenty of ventilation to prevent bad odours, which can double up as an outdoor cupboard for garden tools or even logs for the fire place.

The Triple Wheelie Bin Store provides 3 lockable open/close doors with easy access lifting lids for your wheelie bins, and comes flat packed with all the fittings and instructions needed for an easy installation.

Specification

Measurements:

201 x 81 x 120cm (LxWxH)

Fits 3 Standard Sized Wheelie Bins

Please Note: Assembly required, fittings and instructions included

FEATHEREDGE BOARDS

Single featheredge boards are used to create a continuous run of fencing to suit an exact size, creating an illusion of a larger garden. Featheredge boards are pressure-treated green to provide protection against wood rot. Boards can be used with an Arris Rail to create full panels.
