TREE REPORT

Re: Oaks and Field Maple

The trees are all located along the front boundary of the property, the Oaks are both, 25 - 30ft tall with a mature crown that has been reduced many times in the past. The trees are healthy and continue to produce good growth after each cut.

The Field Maple is healthy, 20ft tall and the crown is now starting to spread, its limbs reaching over the boundaries to the neighbours and the road.

This is a visual report on the trees current situation; I accept no responsibility for the trees.

Regards,

Nick Wilson.
