

Dear Zoe Toppin

In response to the request for further information, my best estimation is that the trees are in the region of 20m high with a radius of approximately 8m. The distance between the trees is 2m so the crowns merge together. The size of the trees after the proposed works will therefore be in the region of 17.5-18m high with a radius of 5.5-6m.

I trust that the above provides the information that you require.

Regards

Bob Holt
