Dear Sirs,

Re: Planning Application AW/181/15/HH.
Concerning 11 Marquis Way.

I refer to the above planning application currently under consideration. I believe that these newly submitted plans are a considerable improvement on the previous application. My only criticism is that the proposed cladding is completely out of keeping with the general area and would make the property in question stand out rather like a proverbial carbuncle. Materials should match the existing and I hope you will take this into consideration.

Yours faithfully,
