Please ask for:

Technical Support Unit on extn. 37711

23rd June 2017

Dear Mr Robert Gale

Development:

T1 Magnolia Tree in Rear Garden

- A) - Fell - position as attached plan
- B) - The Magnolia is dying - See attached Report from Round Top Trees Ltd
- C) - The Magnolia is currently within 4 metres of a Conservatory and can be rocked which further shows it is dying and also becoming unstable and dangerous
- D) - Attached are photographs showing the decay around the base of the tree referred to in the report from Round Top Trees
- E) - Attached is a photograph showing the sparse foliage referred to in the report from Round Top Trees
- F) - In anticipation of the Magnolia dying we have just replanted a Hoheria tree circa 8 metres from the Magnolia

T2 Norwegian Maple in Rear Garden

- A) Reduce Crown by approximately 0.5 to 1.0 Metres maximum
- B) This tree is in good condition but growing too large and into adjoining trees. By making the Crown reduction our aim is to keep it to a manageable size without impacting its future health whilst at the same time retaining its value to our garden and the area as a whole.
- C) The tree is currently unbalanced in its appearance
- D) A photograph is attached showing it has an unbalanced appearance and that it is growing into some adjoining trees.

Location:

131 Manor Way ALDWICK

Thank you for your application submitted via the internet on 22nd June 2017. It is being dealt with by the Technical Support Unit and has been allocated the reference number

AW/184/17/TC.

We will contact you shortly with further details.

This letter does not confirm validity of the application/documentation submitted.

Yours sincerely

PMAC71p
