Dear Mr. P stack

Please find attached our balcony information and cladding choice..

Hopefully the cladding will give the difference in colour to the rendering you had asked us to achieve. We feel this colour match is very complimentary

As for the balconies we are looking to have the same external framing as before but would like to add glass as infills

Over the years we have had to spend money maintain this wrought ironwork due to being so close to the sea.

Rusting and repairs prior to painting have been ongoing and to help this problem we would like to reduce the amount of metal.

We hope you will approve our new design to enable us to create the dream home we desire.

Thank you for your help with this and we await your reply in due coarse

Kind

Mr & Mrs G Dear
